要 旨

この報告は1963年に British Columbia 大学図書館の逐次刊行物課で、定期刊行物選択のための資料として利用するためになされた一連の非公式な調査の結果である。選択の最終的決定は個々の機関自体の要求を基礎にすべきであるが、下記のリストは選択に際して参考に供することができるであろう。

これは社会科学関係の雑誌とアフリカ関係の雑誌が、カギとなる書誌 (KEY TO BIBLIOGRAPHIES CITED 中の 1.-22. および 23.-36.) に何回リストされているかについて頻度調査をしたものである。

範囲 社会科学関係の雑誌の範囲は International Bibliography of the Social Sciences にカバーされている分野に限っている。つまり、経済学、政治学、社会・文化人類学および社会学である。アフリカ関係についても同じ分野にかぎっている。ただし Republic of South Africa は除外した。

手順 (1) まず International Bibliography of the Social Sciences を基本リストとする。(2) International Bibliography of Economics (vol. 9, 1960) 中に収録されているすべての雑誌のタイトルをカードにとり、キー・ナンバーをつける。(3) International Bibliography of Political Science (vol. 9, 1960) 中のタイトルと、すでに作成されているカードとを照合する。もし、すでにカードが作成されている雑誌のタイトルが、この書誌にもリストされているならば、この書誌のキー・ナンバーを付記する。カードが作成されていない場合には、新たにカードを作成し、キー・ナンバーをつける。このようにしてキー・ナンバー22の書誌まで照合する。(4) アフリカ関係の雑誌についても同じカードを用い、さらにキー・ナンバー23以下36までを追加して照合する。(5) 上記の手順によって得られた結果は紙数の都合上、社会科学の場合には6回以上収録されているもののみリストし、参考のために、それらがアフリカ関係の書誌 (キー・ナンバー23から36まで) に収録されている回数をも付記し、合計数を与えた。(6) 同様に、アフリカ関係の雑誌タイトルについては4回以上収録されているものに限り、社会科学関係の書誌 (キー・ナンバー1から22まで) にも収録されたものも付記し、合計した。

説明 (1) 各記入はタイトル、創刊年、出版地、刊行頻度 (もしわかれば) からなる。(2) できるか

The following report represents, in part, the results of a series of informal studies which were made in 1963 for the use of the Serials Division of the University of British Columbia Library as an aid for periodical selection. Since the basis of selection is the number of times each title is cited in the key bibliographies, it can be useful in many libraries, provided that the final choice is made on the basis of the special needs of the particular institution. The results given below comprise two lists of the most frequently cited journals relating to the Social Sciences and to Africa (excluding the Republic of South Africa) according to the bibliographies checked. (Key 1-36).

Scope

For practical purposes here the term "social sciences" was limited to the fields covered by the *International Bibliography of the Social Sciences*—economics, political science, social and cultural anthropology and sociology.

The African journals listed cover substantially the same fields.

Procedure

1. The *International Bibliography of the Social Sciences* was chosen as the basic list.

2. Cards were made for every title in the *International Bibliography of Economics* (v.9, 1960) which was assigned the number 1 in the KEY TO BIBLIOGRAPHIES CITED.

3. The *International Bibliography of Political Science* (v.9, 1960), which was assigned the number 2 in the key list, was checked against the cards already made. If a periodical for which a card was already made was cited in this bibliography, the number (2) was added to the number (1) already there. If the title was not included, a card was made and the key number (2) placed on it. The same procedure was followed for the remaining titles cited in the key as numbers 1-22.

4. When it was decided to compile a list of African journals, the same cards were used

but the additional specifically African bibliographies (key numbers 23-36) were added and the same procedures followed.

5. Obviously the number of journals listed here represents but a very small fraction of the total number of titles listed. For example, the relatively small African list included 402 titles listed twice or more, of which only the top 39 are given here. For the Social Sciences only those cited six times and more in the specifically social sciences lists (numbers 1-22) are listed but the additional information about the number of times each journal was quoted in the African lists (23-36) is also included and the totals given as a matter of interest.

6. Similarly the African titles listed represent only those cited four times and more in the specifically African lists (key numbers 23-36) in order of rank but the extra information about which ones were also listed in the social science bibliographies (key 1-22) is also included, with totals. It is assumed that this information may be useful to libraries with very limited budgets.

Explanation

1. For each entry the title, beginning date, current place of publication and frequency are given, if known.

2. Entries are made under the latest title so far as known and cross references made for recent title changes.

3. The African list gives the above information only for titles not already cited. For full information concerning those titles starred (*), refer to them in the Social Sciences list.
